emco dirt collection well 5512CN

| | |
|--|---|
| Model | 5512CN |
| Weight (kg/m²) | 16,6 |
| Approx. material thickness (mm) | 2,0 |
| Structure | An dirt-collection well unit can consist of either a single-piece well, or multiple wells with different widths and depths that are assembled consecutively in a modular fashion. From a visual and functional perspective, the entrance mat is manufactured in the same size with an edging frame. |
| Material | Stainless steel (V2A), bonded and watertight, interior completely smooth for easy cleaning. |
| Additional data | The support for the entrance mat is integrated in the well. |
| Larger dimensions | Multiple well units are placed next to each other on site to make a single system. |
| Drainage system | This type of well does not have a drainage system |
| Well overall height | 14mm |
| Max. well depth, one piece (mm) | 1300 |
| Dimensions | Well width:.....mm Well depth:.....mm (walking direction) |
