

### Model 5517CN

emco dirt collection wells are required to counter the increased dirt levels in heavily frequented entrance areas. When combined with the matching emco entrance mat, they form a closed system which reduces dirt transference and protects adjacent indoor floor coverings.

#### Description

Dirt collection wells developed for emco DIPLOMAT and emco MARSCHALL entrance mats for increased dirt uptake.

Outside  
(Zone 1)

Indoor and  
outdoor (co-  
vered, Zone  
1+2)
