

emco dirt collection well

Model 5542CN

emco dirt collection wells are required to counter the increased dirt levels in heavily frequented entrance areas. When combined with the matching emco entrance mat, they form a closed system which reduces dirt transference and protects adjacent indoor floor coverings.

Description

Dirt collection wells developed for emco PLAZA entrance mats for increased dirt uptake.

Outside
(Zone 1)

Indoor and
outdoor (co-
vered, Zone
1+2)

Street dust,
hair, sand,
ash, textile
fibres, small
leaves and
twigs, loose
chippings,
