Model CONFORM TILES

Construction	Tufting-Velours 1/8"
Pile above substrate	100% polyamide ECONYL
Substrate material	Polyester fleece
Backing material	Bitumen
Pile weight / fibre weight	1.200
Total weight (g/m²)	4.260
Overall height (mm)	9
Tuft density/m²	132.280
Slip resistance	DS (EN 13893)
Certificates	CE conformity EN 14041 (rolls only)
Supplied as tiles	approx. 50 x 50 cm without a border (with asphalt coating)
Product characteristics	Soiling and moisture absorption
Laying	Clean-off tiles must be removed from their packaging and allowed to stand for 24 hours to acclimatise. Our clean-off tiles are suitable for laying without bonding due to the heavy-duty bitumen coating. However, to prevent the tiles from shifting/slipping and the edges lifting during use, we recommend that tiles are laid on a self-levelling tackifier. Direction of fibres: the arrow on the reverse of each tile indicates the direction they are to be laid in. Check before laying whether the tiles are to be laid in the same direction or in a chessboard pattern. Underfloor heating: clean-off tiles provide excellent heat insulation and therefore reduce the performance of underfloor heating. We do not recommend laying our tiles on underfloor heating systems.

Cleaning	Dirt removal with powerful brush vacuum cleaner. The spray extraction process is recommended for periodic basic cleaning. Cleaning with plenty of water is absolutely no problem, water temperature should not be above 40°C. Do not use chlorinated hydrocarbon (Tetra).
