

Model QUADRO 22

Premium-quality, eye-catching stainless-steel profile with laser-cut text and logos for emco entrance mat systems. Freely selectable positioning and fonts.

Description

Upgrade your entrance even more: with wording in a stainless steel profile in your entrance mat system. This is not a simple print, but a high-quality, laser-cut stainless steel profile that is permanently incorporated in the entrance mat. Some areas are planned larger - e.g. to display a logo. Two translucent colours are available: red (RAL 3020) or black (RAL 9005), which can be displayed at the same time in the profile. The second colour can be shown only in the area of the expanded logo area.

Indoor and outdoor (covered, Zone 1+2)
